## ***95 employers meet job-ready students at career fair***

**February 14, 2012** – SIAST Kelsey Campus hosted its career fair in Saskatoon today. Students from engineering technology, industrial, science and health, technology, community services and recreation and tourism programs had the opportunity to explore employment options with 95 organizations from across Western Canada.

Career Fair 2012 Sponsored by PotashCorp was organized by the SIAST Kelsey Campus Student Employment Services (SES) office. The SES office at each of SIAST's four campuses provides career information, job search and recruitment services to students and employers.

"This year's career fair is the biggest ever – confirming the Conference Board of Canada forecasts that Saskatchewan will lead the country in economic growth in 2011/2012," says Tracy Hoeber, employment services coordinator, SIAST Kelsey Campus. "Whether students and grads are looking for part-time work immediately, full-time career options or entrepreneurship and self-employment information – there is something here for everyone."

The career fair gives employers a head start on recruitment. Approximately 1,600 SIAST students at SIAST Kelsey Campus explored their employment options at the career fair to get a head start on their post-grad job searches.

SIAST is Saskatchewan's primary public institution for post-secondary technical education and skills training, recognized nationally and internationally for its expertise and innovation. Through program and course registrations, SIAST serves 26,000 distinct students with programs that touch every sector of the economy. SIAST operates campuses in Moose Jaw, Prince Albert, Regina and Saskatoon, and provides a number of courses and programs through distance education.
